

# Waylon

**Waylon is a smart, handsome 3 year old mix of Chow, German Shepherd, with maybe a little Lab thrown in for good measure?!**

**He was adopted as a young dog about two years ago from a shelter, but was sadly returned to shelter life a year and a half and later. Waylon joined Pack Life at the end of January this year and has thrived in his new environment with his two foster siblings—Ozzy, a young, energetic pitbull mix and Ella, a no nonsense bulldog mix—with whom he lives and plays. good natured and loves everyone he meets. When he first arrived, he was a bit reserved and not particularly affectionate and didn't seem to know how to play, but after time he's dropped that shell completely and learned all about giving kisses and cuddling and is a happy and playful boy. His foster mom says that Waylon snorts and grunts when he's particularly happy!**

**Waylon has learned basic obedience skills such as walking on a leash, sitting on command and “leave-it”, and also plays a mean game of fetch! He kennels easily and keeps his kennel clean, so he may be housetrained as well. He's very responsive to praise and treats and because he's bright and eager to please, he learns new skills quickly. Waylon likes to hang out with his doggie siblings and go for rides and walks, or he's just as content to curl up with his foster mom for TV or computer time.**

**Waylon has really turned out to be a “hidden treasure” and anyone would be lucky to have him join their family.**

**Waylon loves to jump onto things to sit and survey his surroundings! Here he is in one of his favorite spots on his foster family's Jeep.**
